

DID YOU KNOW? EASTERN COYOTE

The Eastern Coyote, resident in Montgomery County, is larger than its western relative, with gray, brown, and black fur. Adaptable and opportunistic, it thrives near human habitats. Known for its yipping calls, the Eastern Coyote helps control rodent populations.

FUN FACTS

- ✓ Hybrid of western coyotes, wolves, and domestic dogs
- ✓ Eats small mammals, birds, fruit, trash
- ✓ Monogamous and often mate for life
- ✓ Communicates through a series of yips, howls, and barks
- ✓ More nocturnal in areas with high human activity
- ✓ Trots with their black tipped tail pointed down
